

ALI NEAMA ALLAMI

IT Infrastructure & Security Infrastructure Manager

Baghdad, Iraq | +964 7707939030 | alineamaherez@email.com

PROFESSIONAL SUMMARY

Result-driven IT Manager and Infrastructure Engineer with over 6 years of experience designing, deploying, and securing enterprise-grade infrastructure. Proven track record leading critical technology initiatives, including the security network for the landmark Central Bank of Iraq project and multi-tier cloud migrations. Expert in managing hybrid server environments (Windows/Linux), enterprise storage (RAID 10), advanced networking (Ubiquiti UniFi), and digital archiving workflows. Skilled in aligning modern IT infrastructure with strategic corporate objectives.

PROFESSIONAL EXPERIENCE

LATEEF GROUP (Holding Company) | Baghdad, Iraq

IT Specialist / Infrastructure Manager

August 2025 – Present

- Leads the Digital transformation of the holding company (a group of 13 companies), classic hard copy archive to DMS system. Enhance the daily work flow by upgrading to ODOO Enterprise Resources Planner.
- Orchestrate and optimize complex on-premise and cloud server architectures, ensuring 99.9% uptime and bulletproof security protocols across multiple holding sectors.
- Spearhead the enterprise-wide Electronic Archiving Project utilizing Fujitsu hardware and specialized document management architectures to digitize legacy corporate records.
- Manage and extend multi-site networking infrastructure including high-speed internet delivery, advanced routing, switching, and distributed Hikvision/Dahua IP CCTV networks.
- Administer Microsoft 365 enterprise tenants, enforcing strict Multi-Factor Authentication (MFA), role-based access control, and seamless data governance via SharePoint and OneDrive.
- Oversee the development, testing, and system administration of Odoo Enterprise ERP environments, supervising database configuration, workflows, and module integration.

ATLAS ACCURACY | Baghdad, Iraq

Project Manager – Security Tech Solutions

December 2024 – August 2025

- Directed the lifecycle of end-to-end security technology deployments and integrated network systems for commercial client portfolios.
- Supervised technical delivery teams in designing robust physical security architectures, access control systems, and high-density surveillance networks.
- Managed stakeholder expectations, technical project specifications, hardware procurement pipelines, and local vendor coordination.

DAAX CONSTRUCTION | Baghdad, Iraq

Security System Engineer

October 2019 – October 2024

- Successfully designed, deployed, and scaled the highly secure dedicated network for IP CCTV cameras and Access Control Systems (BMS/Gates) at the landmark (Zuha Hadeed) **Central Bank of Iraq project**.
- Maintained and Troubleshooted critical Windows Server environments and active directory roles supporting security management software platforms.

- Administered Microsoft 365 cloud productivity solutions, managing email infrastructure, licensing, and security baselines for project teams.
- Ensured network reliability, high availability, and proactive fault isolation across a highly sensitive, critical national infrastructure site.

TECHNICAL & CORE SKILLS

- **Networking & Infrastructure:** Ubiquiti UniFi Routing & Switching, Site-to-Site VPN, SD-WAN, 10 Gbps ONV Switch Gear, IP CCTV (Hikvision, Dahua, Aswar), Access Control Systems (ZKteco).
- **Systems Administration:** Windows Server 2022, Ubuntu Linux, Hyper-V Virtualization, Active Directory, RAID 10 Configurations (Dell PowerEdge , HPE ProLiant Gen10 plus), TSplus Remote Access.
- **Cloud & ERP Systems:** Microsoft 365 Tenant Administration (Exchange Online, SharePoint, OneDrive, MFA Deployment), Odoo Enterprise ERP System Administration.
- **Enterprise Archiving:** LaserTech Document Management Systems (On Premise / WebApp), Digital Workflow Archiving, Fujitsu High-Speed Scanning Hardware Implementation.

PROFESSIONAL CERTIFICATIONS

- BSc degree of Computer Technology Engineering / Almansour University College.
- Cisco Certified Network Associate (CCNA)
- Microsoft Server Administration (MSCA)
- LaserTech Administrator (Specialized Certificate of Appreciation & Technical Competence)

Subject: Letter of Appreciation

Dear Mr. **ALI NAEMA HEREZ ALLAMI**

Computer Communication Networks Engineer

I would like to convey my appreciation for the amazing work done by you since you started working on 01 OCT 2019 until today for Central Bank of Iraq Headquarters Construction Project with our company. You have proven your quality by adding value to our efforts.

Your diligence, self-motivation as well as dedication have been a source of inspiration for your colleagues and gladly observed by your superiors and me.

You have demonstrated utmost efforts and experience in the areas of:

- Facilitating Security system networks maintenance and operability,
- Facilitating Security Access Control Systems management,
- Incident reporting and investigations,
- CCTV System facilitation, maintaining the integrity and privacy of company CCTV records
- Inventory, storage and stock management and maintenance of security systems items,
- Keeping track of surpluses, obsoletes and making requisitions for depleted stocks and stock replenishments.
- Recommending minimum stock levels for urgent, monthly and annual requisitions planning.

We wish you a better future in your next professional experience.

Thank you again for all your efforts.

Sincerely,

Orkun SUMER
Security Manager
